NEW!

OCTOBER 2014

**2-1/2" Conduit Hubs,
Grounding Hubs, Locknuts, and
Grounding Locknuts**

Gibson Stainless has added the 2-1/2" size to their conduit hub and locknut product line.

Heavy-duty, cast CF8M/316 SS conduit hubs are designed for use with threaded conduit and provide a means of connecting conduit to various enclosures and/or for terminating electric circuits. A neoprene "O" ring provides a watertight seal and a specially designed locknut (316 SS) grips firmly for secure installation.

Stainless steel locknuts are used to connect and secure threaded rigid conduit to an enclosure or outlet box.

Part	Part Number
2-1/2" Conduit Hub	7250-HUB
2-1/2" Grounding Hub	7250-G-HUB
2-1/2" Locknut	8250
2-1/2" Grounding Locknut	8250-G
